

Salonspy

When did you last look or ask for others opinions when you were about to make a big purchase or make a reservation?

I am sure it was not too long ago! SalonIQ is fully integrated with Salonspy reviews.

86% of consumers would consider writing a review for a business.

How does it work?

Once integrated, an SMS is sent to your clients 1 hour after their visit to request they leave a review. The review then sits 'under review' with salon spy, Once the review has been checked and verified, this is then displayed within the salon spy directory.

How can I set this up?

There is one SMS to activate within SalonIQ and a quick and easy registration process with Salonspy. That's it! Go to salonspy.co.uk to get started.

Is there a cost?

Salonspy has a complimentary option and a paid VIP option.
